- // High-performance polycarbonate diffuser and base
- // BESA box and conduit entries
- // Presence detection options
- // IP65
- // Hinged gear tray
- // 3000K available
- // CRI>80
- // 5-years warranty

Construction

Our Cohort circular bulkhead has been specifically designed as an amenity bulkhead for interior or exterior use. The fitting base and diffuser are manufactured using high-grade polycarbonate material, which has been designed to maximise the LOR, ideally suited to the use of LED lamps. To further enhance the protection this luminaire already offers, tamper-proof stainless steel screws are supplied to secure the diffuser.

As standard, the luminaire utilises branded electronic control gear which is mounted on a hinged metal gear tray to enable easy installation.

Typical Applications

External Lighting, Toilets, Store Rooms, Corridors and Warehouse Areas.
