- // Base available with or without halo effect
- // Available in white, chrome, brass or satin silver trim options
- // IK10 rated
- // CRI>80
- // 5-year warranty

Construction

Our Orion bulkhead has been designed with one fits all in mind. Its appearance fits with any interior application with the variety of trims, yet it can be used externally, too, due to being IP65 and also IK10. The housing is made from polycarbonate and uses a high-transmission diffuser whilst hiding any LED spotting. The base provides the installer with two 20mm cable entry points and a rear BESA mounting point.

As standard, the luminaire utilises control gear from major manufacturers.

Typical Applications

Stairwells, Corridors, Toilets and General Amenity Areas.

Size Options

Size	
Ø 380mm	H 94mm

Product Code	LED Wattage	Lumen Output	Lumen/Watt	Colour Temperature
