

ENDURA

LED Corrosion-Resistant Luminaire

- // High-output opal polycarbonate diffuser
- // High-efficiency LED driver and strip
- // European-branded components
- // Maintenance free, no need to relamp
- // Presence detection options
- // Supplied with easy-fix system for surface or suspended installation
- // Emergency and dimmable versions available
- // IP65
- // 3000K available
- // CRI>80
- // 5-year warranty

Construction

Our Endura IP65 LED corrosion-resistant luminaire has been designed as an all-round weatherproof luminaire ideally suited to industrial applications. The luminaire base and opal diffuser are manufactured using high-grade impact-resistant polycarbonate material. We have designed our luminaire with an easy-fix system that enables the luminaire to be either directly surface mounted using the stainless steel brackets or suspended using the hook set provided. This system ensures the IP65 rating of the luminaire is maintained at all times. Stainless steel clips are supplied as standard.

As standard, the luminaire utilises a branded electronic control gear mounted on a white powder-coated metal gear tray.

Typical Applications

Car Parks, Warehouses, Cold Stores, Food Processing Plants, Jet Wash Zones, Laboratories, Plant Rooms, External Canopies and Animal Housing Areas.

Size Options

Size A	Size B	Size C	Size D
L 1260mm	L 1562mm	L 1260mm	L 1562mm
