

Pacifica Instruction Manual - LDT Files

We offer the LDT files for the Pacifica in 280mm sections, so that any length or configuration can be created by the user in Dialux/Relux.

Below is a table showing how many 280mm sections should be used for each standard model.

Please note also that currently only the downlight sections are available as LDT files. If the upright sections are needed for WELL standard calculations or some other purpose, please get in touch to request information.

Product Code	Length - Light Output	Length - Overall	Modules
PAC568	568mm	705mm	2
PAC848	848mm	985mm	3
PAC1128	1128mm	1265mm	4
PAC1408	1408mm	1545mm	5
PAC1688	1688mm	1825mm	6
PAC1968	1968mm	2105mm	7
PAC2248	2248mm	2385mm	8
PAC2528	2528mm	2665mm	9
PAC2808	2808mm	2945mm	10

Custom lengths and shapes can be created, please call us on the number below for details and assistance.
