

CASE STUDY HOLLYBROOK HOUSE, LONDON

PROJECT BRIEF for Hollybrook House

Mount Lighting was commissioned to provide a lighting scheme for the office areas which formed part of the mixed use scheme for Hollybrook Homes' new headquarters located in Queen Elizabeth Street, London, SE1.

Project Requirements

- Modern smart looking LED fittings
- Long fitting life/low maintenance
- Energy saving
- Sustainable products
- Integral DALI dimming controls
- Integral emergency packs

Products Utilised

- **M-Line** Suspended linear LED c/w direct and indirect lighting
- **M-Line** Recessed wall and ceiling linear LED system
- **DECO** High Efficiency LED downlight c/w white reflector
- **ELW3** Recessed emergency minispot
- **RZRL** Recessed emergency exit box
- **MEA** Surface mounted LED luminaire

PROJECT CONCLUSION

The lighting supplied met with our client's expectations, was supplied within budget, met the design requirements and function.
