

HOLT DIE-CAST

Vandal-Resistant Die-Cast Base Square Surface Bulkhead Luminaire

- // Die-cast aluminium base with polycarbonate diffuser
- // BESA box and conduit entries
- // Presence detection options
- // Stainless steel anti-tamper screws
- // Hinged gear tray
- // IP65
- // 3000K available
- // CRI>80
- // IK10 rated
- // 5-year warranty

Construction

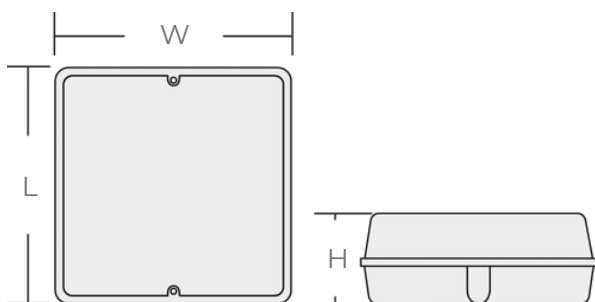

Our Holt square die-cast bulkhead has been specifically designed for use in vulnerable areas where a further degree of protection is required for luminaires. The base of the luminaire is constructed using die-cast aluminium. The diffuser is manufactured using high-grade polycarbonate material that has been designed to maximise the LOR, ideally suited for the use of LED lamps. To further enhance the protection this luminaire already offers, tamper-proof stainless steel screws are supplied to secure the diffuser.

As standard, the luminaire utilises a branded electronic control gear that is mounted on a hinged metal gear tray to enable easy installation.

Typical Applications

High-Security Areas where vandalism is a problem, Communal Stairwells, External Lighting, Store Rooms, Toilet Blocks and Public Buildings.
