

LEPG27

Ultra Low Glare Recessed Panel

- // Recessed LEDs with lenses
- // Low glare, typically UGR <16
- // Very high efficiency, up to 148lm/W
- // Tridonic control gear for reliability
- // LED 4000K, CRI>80, 50,000 hours life
- // Low maintenance
- // 5-year warranty

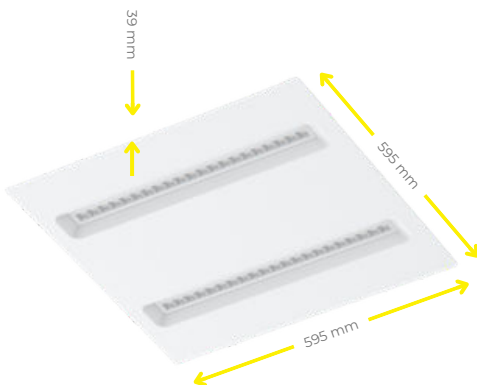

Construction

A robust, commercial-grade ultra low glare LED ceiling panel designed for workplaces, classrooms, healthcare facilities and retail spaces where high-quality general lighting and low glare matters. Built around a modular light engine that's easy to access, the LEPG27 gives you very high efficacy and low glare combined, with the use of recessed anti-glare optics.

Typical Applications

Workplaces, classrooms, healthcare and retail spaces where low glare and high efficiency are prioritised.

Dimensions
