LED Corrosion-Resistant Luminaire

- // High-output opal polycarbonate diffuser
- // High-efficiency LED driver and strip
- // European branded components
- // Maintenance-free, no need to re-lamp
- // Presence detection options
- // Supplied with easy fix system for surface or suspended installation
- // Emergency and dimmable versions available
- // IP65
- // 3000K available
- // CRI>80
- // 5-year warranty

Construction

Our Endura 5, IP65 corrosion resistant LED batten light has been designed as an all-round weatherproof luminaire ideally suited to industrial applications. The luminaire base and opal diffuser are manufactured using high-grade impact resistant polycarbonate material.

We have designed the Endura with an easy fix mounting system, using stainless steel brackets for surface mounting or the hook set provided for suspension. This system design ensures the IP65 rating of the luminaire is maintained at all times.

As standard, the Endura utilises branded electronic control gear mounted on white powder-coated metal gear tray. Stainless steel clips are supplied as standard.

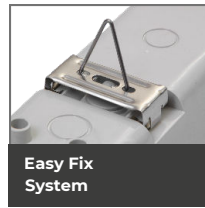

Typical Applications

Carparks, Warehouses, Cold Stores, Food processing Plants, Jet Wash Zones, Laboratories, Plant Rooms, External Canopies and Animal Housing Areas.

Size Options

Dimension	Small	Large
